- Enrollment in the Penn State sponsored medical plan is either as the primary subscriber or via a spouse as a dependent
- Call HR Services to confirm your eligibility to retire with retiree medical benefits
- You are a “retiree” without the Penn State medical plan if you only meet the “years of service” criteria

Medicare
How Medicare Works

Original Medicare

**Part A** (hospital)
- Inpatient hospital care
- Skilled nursing care
- Provided at no cost

**Part B** (doctor’s office)
- Doctor visits & preventive care
- Testing and lab
- Monthly Premium paid to Social Security
  *Indexed based on income*

Eligible the first of the month in which you turn 65

If you apply three months prior to turning 65, or three months after, you are considered in your Initial Enrollment Period.

**IMPORTANT NOTE:** Applying BEFORE you turn 65 will make Medicare effective date the first of the month in which you turn 65; Applying AFTER you turn 65 will result in an effective date based on your application date.

FOR MORE INFORMATION ON MEDICARE – PLEASE CONTACT THE SOCIAL SECURITY OFFICE OR MEDICARE DIRECTLY
How Medicare Works

**Part C** *(Medicare Advantage Plans)*

- Covers everything in Parts A + B
- Can have benefits like Rx bundled in

**Part D** *(Prescription Drug Coverage)*

- Original Medicare doesn’t cover Rx
- Covered through an insurance company

*Do Not Enroll in Part D, if you are staying with Penn State’s retirement plan for Medicare eligible retirees and Medicare eligible dependents*

- Medicare Advantage Plans are a type of Medicare health plan offered by a private company that contracts with Medicare to provide all your Part A and Part B benefits.

- Medicare dictates that you MUST be enrolled in Medicare Part A and B in order to be enrolled in a Medicare Advantage plan, which requires you to pay the monthly Part B premium directly to Social Security/Medicare

- A Medicare Advantage plan is also known as Medicare Replacement Plan – the only insurance you will need when obtaining medical and prescription services and the Highmark Freedom Blue ID card will be the only ID card needed

- Medicare also states you can only be enrolled in **ONE** Medicare sponsored product at a time, including Part D
Medicare-Eligible as an Active Employee

As an active employee, the Penn State Health Plan is considered primary for you and your eligible dependents.

Employees need to make the determination if it makes fiscal sense to enroll in Medicare as a secondary insurance.

Optional Strategies

- Delay enrolling in Medicare Part A and B until you retire/term active employment.
  Must take this strategy if you are enrolled in the PPO Savings plan with a Health Savings Account.

- Enroll in Medicare Part A, since it is provided at no cost and delay enrolling in Part B until retirement/termination of employment.

- Enroll in Medicare Part A and B and use it as secondary insurance,
  Since there is a premium associated with Part B and it is secondary coverage, it may not make financial sense to pay for Part B. Please contact your local Social Security Office with any questions regarding Part B.
Medicare Eligible at Time of Retirement
Medicare Eligible at Time of Retirement

Begin the process 2 - 3 months BEFORE retirement

1. Enroll in Medicare Parts A & B by visiting your local Social Security Office
   Form CMS-L564E – Request for Employment Information
   • If you are applying three months prior to turning 65, or three months after, you are considered in your Initial Enrollment Period and do not need this form – confirm with Social Security what your effective will be if you are in Initial Enrollment Period.
   • Need if you are older than 65 years and four months to show continuous coverage under an active employer plan
   • Enables Social Security to waive Late Entrant Fee for not enrolling in Medicare during your original Initial Enrollment Period
   Do not enroll in separate Part D drug plan – prescription drug plan included in Freedom Blue PPO

2. After receiving your Medicare card, complete the Freedom Blue application and return it to Employee Benefits with a copy of your Medicare card PRIOR to your retirement

3. You will be enrolled for the first of the month following retirement, as your active employee coverage will end at the end of the month in which you retire.

New ID Cards will be sent from Highmark with new ID and Group Number
Once Employee Benefits Receives your Electronic Retirement Event:

• If Freedom Blue application is received, enrollment information is electronically sent to vendors as early as three weeks prior to the effective date
• Takes Highmark 3 - 5 business days to finalize your enrollment as they are required to verify your Medicare information with Centers for Medicare Services (CMS)
Medicare Eligible at Time of Retirement

- Failure to follow the process could result in a disruption of your medical coverage

  - Freedom Blue effective date will be entered as the first of the month following receipt of your application, **IF** it is not turned in *prior* to your retirement.

  - Failure to return the Freedom Blue applications within **60 days** after retirement will be considered voluntary dis-enrollment in retiree medical benefits offered. Once dis-enrolled, retirees are not able to re-enroll at a later date.

**NOTE:** Should you experience any delays with Social Security securing your Medicare coverage, please call HR Services and they will direct you to Employee Benefits to review possible alternatives

Medicare Eligible at Time of Retirement

Retiring and over 65

- You may receive a letter from the Department of Health and Human Services stating “it appears you did not have prescription drug coverage that met Medicare’s minimum standards.” The letter indicates you may be subject to a late enrollment penalty.
- If you receive this letter, please complete the form and send it back to Highmark. They will adjust their records accordingly to ensure they reflect your creditable coverage during the time you were enrolled in a Penn State sponsored medical plan.
- If you have returned your Freedom Blue application LATE, you may be subject to this penalty due to the period of time you had NO coverage.

65 ½ or older AND enrolled in the PPO Savings Plan

- Anyone age 65 ½ or older who is enrolled in a qualified high-deductible health plan (PPO Savings Plan) with a Health Savings Account (HSA), who retires and enrolls in Medicare Part A, will experience a Medicare-required “look-back period” of 6 months.
- The solution: In order to avoid potential tax issues, you want to STOP YOUR HSA CONTRIBUTIONS so that you have 6 months of NO contributions before you FILE FOR MEDICARE.
- Consult with your licensed tax advisor.
Becoming Medicare Eligible after Retirement

Becoming Medicare Eligible due to Disability

- Medicare eligible retirees and dependents enrolled in Parts A and B, need to enroll in Penn State’s Medicare Advantage plan. Please contact HR Services upon becoming Medicare Eligible to enroll in the correct plan based on Medicare eligibility.

- For those eligible for Medicare due to disability and are only enrolled in Medicare Part A, Medicare will pay as primary for Part A services. Aetna will pay primary for Part B until you become Medicare eligible due to age; at which time you are required to enroll in Medicare Part B to continue on Penn State benefits
